

WHAT DOES MY STARBUCKS ORDER BUY IN UGANDA?

CHRISTMAS 2023

OUR GANDA

Let's Ignite Hope. Let's Change Things.

Dear Friend of Ourganda,

You don't have to actually give up your coffee (unless you're willing to!), but how about matching it for a couple of days, a week, or maybe a month?

It's easy to bless our friends in Uganda who have an exceptionally difficult life. Please take a minute to browse through the options in this catalog, then do some quick math – and decide your impact.

Thank you for being someone's hero. And may God bless you and your family especially during this Christmas season.

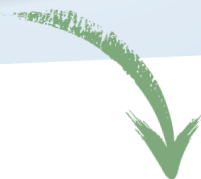

Ron Gladden, Director

A special way to honor someone you love

Every gift creates a huge impact

Give a gift that will truly change lives

Easy ways to give:

Mail the enclosed donation card • Call 360-624-7271 • Visit ourganda.org/Christmas •

GIVE A HYGIENE KIT

Imagine a young woman resorting to rags, banana leaves, feathers or even cow dung to manage her menstruation. Without a solution, she is excluded from school or a job; her life is disrupted and sometimes ruined. A simple hygiene kit is a safe, washable, long-lasting alternative she can count on month after month. Your gift lifts and empowers women to prosper. With your help, we can reach thousands of women everywhere. Period.

\$8 – provides 1 hygiene kit

\$160 – provides 20 hygiene kits

GIFT A BIRTHING KIT

When a woman in one of our villages is in labor and makes it to the hospital, she is not admitted unless she arrives with her own birthing kit. That shocking reality partially explains why over 200 moms and babies die every day across the country. Ourganda has received a generous grant for basic birthing kit items, but our team supplements them with a blanket, surgical gloves, maternity pads, soap and extra gauze.

\$6 – supplements 1 birthing kit

\$120 – supplements 20 birthing kits

GIVE A WATER BACKPACK

In villages where women and girls have to carry water from far away, a water backpack is a huge blessing. Instead of a 45-pound plastic jerry can balanced on her head or the weight on her neck, she can carry the same amount of water with the weight distributed on her shoulders and back. Everyone loves the water backpacks, and once they experience how awesome these backpacks are, some of the men are stepping up to carry water, too!

\$6 – provides 1 backpack

\$60 – provides 10 backpacks

GIVE THE GIFT OF CLEAN WATER WITH A WATER FILTER

After a long journey with 45 pounds of water on their heads, women arrive at their homes with a jerry can containing polluted water. It's the best they can do unless we provide urgently-needed water filters. At a cost of 4 or 5 trips to Starbucks, you can provide a water filter system (filter, stand, and jerry cans) for three families.

**\$42 – provides 1 filter
(up to 25 people)**

**\$420 – provides 10 filters
(up to 250 people)**

GIVE A KID'S KIT

You haven't seen a child this grateful until he or she receives a kit that includes shoes, soap, mosquito net, dish & bowl, underwear, toothbrush & toothpaste, and a water bottle - all in a beautiful bag displaying the Kids Sharing Project logo. No more jiggers in her feet; no more scabies on his head because now he can wash with soap; no more mosquito bites at night. The health benefits are enormous, and the joy on the face of the kids is priceless.

\$14 – buys 1 kid's kit

\$70 – buys 5 kid's kits

*Make a kid
smile!*

*A popular
gift with high
impact*

SOCCER BALL & GOALS

The fastest way to gather a crowd of energetic children is to break out a soccer ball. Passing up a morning or two at Starbucks can buy one ball, or you can spread the excitement to a bunch of villages by providing a ball to each of our nine villages. It's time to play!

\$10 – buys 1 soccer ball

**\$95 – buys a soccer ball and
two net goals for a village**

COMPLETE THE COMMUNITY CENTER

We are nearing the finish line! Everyone – the Ourganda team, the construction workers, and visitors to the campus – declares that this is the most beautiful campus in hundreds of miles. We are almost ready to invite the community to sports events and classes that will ignite hope and model flourishing in the hearts of men, women and kids.

We need your help to wrap things up.

• Furnishings – any amount

A gift of any amount will help fill the conference room, guest rooms, multi-purpose room and offices with tables, beds, desks and chairs.

• Picnic Shelter – \$5,200

This amount provides the funds to build the shelter.

• Driveway and Sidewalks – \$24,000

Paving isn't cheap, but it costs a lot less in Uganda than it does in your home town. Help us finish the job.

• Trees & Shrubs – \$1,600

Thanks for helping us put the finishing touches on the dream.

REPLACE MUD HUTS WITH AFFORDABLE PERMANENT HOMES

When the community center is finished, our new construction cluster will begin replacing the mud & sticks huts in our villages with homes made of bricks with a roof that keeps the rain out and a door that locks. How will we bring the cost of a permanent home within the reach of families who work hard and save? Ourganda will hire the construction crew, purchase the tools, and cover 1/3 of the cost of materials as a loan.

• **Construction Crew – \$12,010** (annual salary for 4 employees)

• **Truck and complete set of tools – \$10,000**

• **Place a family in a home – \$2,700** (one-third of materials)

SICKLE CELL TESTS

The Bundibugyo District is an epicenter for sickle cell disease (SCD), yet no hospital or clinic for almost 100 miles tests the children. And since 80 percent of the kids with SCD die before their 5th birthday, something has to be done. Ourganda is taking the lead in testing for sickle cell disease. Once a child is diagnosed, he or she can be treated which means another life is saved. Your gift of a box of SCD test strips will directly save the lives of precious children.

You can
relieve the
suffering

Change
a life
forever

\$30 – buys 10 test strips
\$300 – buys 100 test strips

BUY A MOTORCYCLE

Ourganda's AWD vehicles constantly transport medical workers and supplies to our villages. Often, however, a sick child or an abused woman needs help way beyond the end of the road. A new Boxer motorcycle costs a bit more than coffee, but imagine sponsoring part or all of the cost of delivering life-saving service to people our teams could not otherwise reach!

**\$1,925 – buys a
brand new motorcycle**

SPONSOR AN EMERGENCY SURGERY

What does a person do when faced with a life-threatening injury or condition? Unnecessary death is all too common and can often be prevented with surgery. Because of numerous sponsorships, Ourganda has been able to save many lives. Your gift of a surgery gives you the joy of being a person's hero for many years to come.

**\$1,000 – covers the average
surgery in Uganda**

**\$500 – pays half of an
average surgery**

SCHOOL FEES

Every child longs to attend school, but half of them never have the chance because they cannot afford the fees. It's easy to change that. Do the math and quickly decide how many children you would like to send to school every day for an entire year.

**\$90 – covers tuition for
one student for an
entire year**

**\$450 – covers tuition for
five students for an
entire year**

EMPOWER AN ENTREPRENEUR

Many people don't need a handout; they need an opportunity. Men, women and young people in all our villages are eager to lift themselves out of poverty by starting or joining a micro-business. Here is our chance to help them. Your willingness to match your Starbucks purchases can bless Ourganda's entrepreneurs with one or more of these:

Micro-Loan – \$100

A gift of \$100 is sufficient seed money for an entrepreneur to get started. When the borrower pays it back, the money is recycled to a second businessman or woman.

Power Tools – \$150

Your generosity allows our bee-keeping and carpentry clusters to purchase another time-saving tool.

Adopt-a-Business – You Decide Your Level of Support

When you choose to partner with any of our micro-businesses, you decide the amount you want to invest. We can share a list of businesses, then connect you to ambitious women and men who would love your help – and you can take it from there.

HELP END DOMESTIC VIOLENCE

Ourganda has created a Rapid Response team that springs into action the moment an offense occurs. Our team's leader, Esther, grabs a few Mankind Club members, goes to the home of the offender, and gives him a choice: kindness or prison. With government officials backing her up, the offender's decision has consequences. Out of 250 offenders confronted in 2023, almost all are deciding to be kind. Those who made the wrong choice are in prison or on the run.

Your gift will help break the cycle of domestic violence

Esther's Army – \$250 a month

This amount provides the salary for Esther's next team member.

Rapid Response Fund – \$100, \$500, or any amount

Your gift helps pay for temporary protection for women and children; food, medications and medical care for victims; and legal fees when a women needs to file a case.

Mankind & Soul Sisters Clubs – \$100, \$500, or any amount

Your gift assures that these brave volunteers receive ongoing training, resources to support victims and offenders, and attractive T-shirts that identify club members as vital activists in solving the domestic violence problem.

Ourganda Ministries

P.O. Box 874205 • Vancouver, WA 98687

Ourganda is creating “collective efficacy” in the villages we serve.

Village leaders are coming to the sweet realization that things can change. Our medical professionals are saving thousands of lives, our micro-business movement is helping people lift themselves out of poverty, and our domestic violence team is wrestling domestic violence to the ground once and for all. The future is becoming brighter.

Thank you for contributing today!

- Choose the scope of your impact.
- Meet the need.
- Become someone’s hero.
