

Survey in 11 Villages of Bundibugyo

In January 2024, Ourganda commissioned an independent researcher to measure the impact of their domestic violence prevention program. The survey was conducted by Nsekanabo Prince Julius in the nine villages where Ourganda operates as well as in two control villages where Ourganda has not implemented any DV-related activities. Nsekanabo Prince Julius is not associated with Ourganda or any of its employees, therefore we believe the results are independent.

These three questions were presented to a total of 550 women, 50 in each of the 11 villages.

1. Do you feel safe in your home?
2. Have you been physically abused in the last 30 days?
3. If you are afraid or hurt, do you know where to go?

Table 1 - Data analysis from 9 Ourganda villages

Areas/Villages	Question 1		Question 2		Question 3	
	Yes	No	Yes	No	Yes	No
Bubandi II	45	5	0	50	48	2
Bulyambaya	41	9	1	49	46	4
Habedu	31	19	6	44	50	0
Kakuka	42	8	3	47	44	6
Karongoti	33	17	5	45	47	3
Kinyante IV	31	19	2	48	47	3
Kitsolima II	32	18	1	49	46	4
Picfare	42	8	3	47	45	5
Sarakihombya	38	12	2	48	50	0
TOTAL	335 (74.4%)	115 (25.6%)	23 (5.1%)	427 (94.9%)	423 (94.0%)	27 (6.0%)

Table 2 - Data analysis from 2 control villages

Areas/Villages	Question 1		Question 2		Question 3	
	Yes	No	Yes	No	Yes	No
Kabuga	24	26	15	35	34	16
Mirambi	21	29	27	23	31	19
TOTAL	45 (45%)	55 (55%)	42 (42%)	58 (58%)	65 (65%)	35 (35%)

Data Summary

Question 1: In the 9 villages, 74.4% of women feel safe in their homes compared to 45.0% in the 2 control villages.

Question 2: In the 9 villages, 5.1% of women have been physically abused in the last 30 days compared to 42.0% in the control villages.

Question 3: In the 9 villages, 94.0% know where to turn if they are afraid or hurt compared to 65.0% in the control villages.

Note: While Ourganda's domestic violence program was launched in August 2022 when Esther Birungi was first employed, it was piloted almost exclusively in one village for the first year. It was recently introduced in Ourganda's other eight villages.
